**Please Check One Inspection Agency:** Once an applicant/homeowner/builder chooses an inspection agency on the Township List they must continue to use that agency through completion of the permitted project.

**Please call your inspection agency direct to schedule your inspections.**

- \_\_\_\_\_ Lehigh Valley Inspection Service (LVIS)  
           P.O. Box 423, Orefield, PA 18069 - Phone 610-395-3827
- \_\_\_\_\_ LTL Consultants, Ltd.  
           P.O. Box 241, Oley, PA 19547 - Phone 610-987-9290

**This is a multi-use application ~ please fill in as to what applies to your project ~ Thank You**

**Plot Plan** ~ Provide three (3) copies of a plot plan showing all existing structures, well, septic tank, drain field, sewer lines, driveway area, and proposed improvements within the lot. Exact dimensions and setbacks must be shown if improvements are proposed less than ten (10) feet from the required setbacks.

**Construction Plans**

**Residential ~ Three (3)** sets of construction plans. Must be "as built" indicating all the information of the Pa. UCC Code, including the square footage of the total floor area of the structure (living area, basement, finished attic, garages, decks and porches).

**Additions to residential dwellings only** ~ if no construction plans are drafted, the Building Inspector may approve a list of materials to be used if the load strengths can be determined by the identification of the rafters, joist, and the spacing of each. A hand drawn plan is acceptable.

**Commercial Structures ~ Three (3)** sets of construction plans; the construction documents shall be prepared by a registered design professional and be signed and sealed. The floor area utilized by the public must be shown separately from the total square footage of the building area.

**\*PLEASE NOTE:** Applications can be submitted electronically if the maximum plan size is 11" X 17".

The applicant certifies that all information on this application is correct and the work will be completed in accordance with the "approved" construction documents and PA Act 45 (Uniform Construction Code) and any additional approved building code requirements adopted by the Municipality. The property owner and applicant assumes the responsibility of location all property lines, setback lines, easements, rights of way, flood areas, etc. Issuance of permit and approval of construction documents shall not be construed as authority to violate, cancel or set aside any provisions of the codes or ordinances of the Municipality or any other governing body. The applicant certifies he/she understands all the applicable codes, ordinances and regulations.

Application for a permit shall be made by the owner or lessee of the building or structure, or agent of either, or by the registered design professional employed in connection with the proposed work. I certify that the code administrator or the code administrator's authorized representative shall have the authority to enter areas covered by such permit at any reasonable hour to enforce the provisions of the code(s) applicable to such permit.

My signature below certifies that I am aware of my responsibility to have each required inspection done. No Certificate of Occupancy shall be issued without the required inspections having been completed.

Heidelberg Township

PA Act 45 (Uniform Construction Code) Permit Application Addendum for Title 25, Chapter 102 Compliance

In accordance with PA Code Title 25 Chapter 102, Erosion and Sedimentation Control, and the necessity of Heidelberg Township and the Department of Environmental Protection through the Lehigh County Conservation District, to control accelerated erosion and minimize sediment pollution to waters of the Commonwealth, the following questions shall be answered to the best of your knowledge:

1. Does this proposed construction/project result in earth disturbance of five thousand (5,000) Square Feet or more? Yes / No
2. What is the anticipated total area of disturbance?

If the total area of earth disturbance is 5,000 SF or more, an Erosion and Sedimentation Control Plan must be prepared and remain on site during the entire project. This plan shall meet the requirements set forth by the Code and the Lehigh County Conservation District. This plan will need to be available for review during the entire project. This plan will be utilized by the LCCD or Heidelberg Township during site inspections of the project. Failure to have an Erosion and Sedimentation Control Plan, and implement the Erosion and Sedimentation Controls as indicated on the plan, is a violation of Chapter 102, and enforceable by the LCCD at any time.

3. Does the proposed construction/project result in earth disturbance of one (1.0) acre or more? Yes / No
3. What is the anticipated total area of disturbance?

If the total area of earth disturbance is 1 acre or more, a National Pollution Discharge Elimination System (NPDES) permit is required. The complexity of the Application is dependent on the receiving stream classification. The permit application and plans shall meet the requirements set forth by the PA Code and the Lehigh County Conservation District. No permit shall be issued by the Zoning Office until the NPDES permit is issued. This plan will need to be available for review during the entire project. This plan will be utilized by the LCCD or Heidelberg Township during site inspections of the project. Failure to have an Erosion and Sedimentation Control Plan, and implement the Erosion and Sedimentation Controls as indicated on the plan, is a violation of Chapter 102, and enforceable by the LCCD at any time.

I have answered these questions to the best of my knowledge. I further state these are the true and correct answers to these earth disturbance questions.
